Dear Candace,

While at the Western States Join Conference, we hope you had the chance to stop by our booth and experience NEC's world-renowned Advanced Recognition Systems which showcased our newest multi-modal biometric workstation. Our solutions can help you and your agency by:

- Enabling forensic examiners and investigators to identify more offenders faster, for more efficient and effective crime solving
- Accurately identifying more people to solve more crimes utilizing NEC's award winning algorithms
- Protecting your investment with continuous commitment to R&D and engineering of best-in-class solutions and products for law enforcement agencies to meet mission goals

Whether in the crime lab, in the field, at the crime scene or in the office, the unparalleled and unsurpassed identification matching accuracy and speed of NEC's Advanced Recognition Systems fingerprint and facial recognition solutions provide the technology-based partnership required for accurate real-time and post-event investigations.

To learn more about how other agencies are leveraging our facial recognition solutions to solve cases and produce leads, read this short case study.

I welcome the opportunity to share ways we can help you and your organization further.

Best regards,

Kelly Gallagher
Sr. Account Manager, NEC Advanced Recognition Systems
